COSMO RATINGS

♥ It's got definite *je ne sais quoi* - you'll really want it without quite knowing why.

♥♥ It's just so damn cute, you'll take it home in a heartbeat.

♥♥♥ It's the tech equivalent of the really nice guy: okay to be seen with, reliable, does exactly what it should.

♥♥♥♥ It has serious pulling power: it turns heads, it works like a bomb and it overdelivers.

♥♥♥♥♥ It's a keeper - you'll love it desperately, you'll overuse it ... get two, just in case you lose one.

➔ Helmet head

This one is for Lara Croft wannabes and adrenaline junkies: the remote-controlled Gobii HD Action Camera is made to fit onto your helmet - yes, helmet - while you're mountain-biking, abseiling, snowboarding, skiing or any other way you care to ensure your mother's continued sleepless nights. You get in-the-air or on-the-ground real-time footage without killing yourself as you try to focus, and you can look where you're going instead. If that doesn't work out so well, it's

also waterproof!

➔ Check the spots

Take a look at the action on Cape Town's hottest beaches *before* you gather bikini, beach bats and broly, and sit in traffic for an hour, only to find shark flags flying at full mast and your BF willing to risk an arm and a leg to cool down....

The *BeachWatch* mobile app streams a brief live video segment so you know exactly what you're in for.

Options Supported by BlackBerry, *Android* and *iOS* devices.

➔ Write on!

Your inspired in-transit insights, brainwaves on the beach and Daliesque doodles just got a chance of being found after your trip and transferred to your computer. Echo SMARTPENS from Livescribe take digital pens to a whole new level: they even record audio as you write,

making them every student's weapon. What was your lecturer *really* saying? Simply tap the pen onto your written words and the audio track will start. These brainy pens come with a range of slick and sexy accessories such as carry cases, notebooks and hard-bound journals. Best of all, it's a cinch to upload notes, organise them, convert them to text and share them.
